Thank You A big thank you to all who came and supported the Screenagers presentation Sunday, April 22, and for being great hosts to our community members! Our worship area was filled, and space was created for parents and kids to begin the conversation about having healthy boundaries around screen time. We are grateful for our panel who were a resource for our community and provided wisdom to share. An extra large thank you goes to Tonya Holt who organized the event, worked with community members to create a panel, and had the heart and passion behind bringing Screenagers to Resurrection!
